Charging the Battery

To charge the battery, connect your Rider 30 to your computer by using USB cable.

Turn on the Rider 30

Press and hold the Power button to turn on the Rider 30 on.

Power button

Acquire Satellite Signals

Once the Rider 30 is turned on, it will automatically search for satellite signals. It may take 30 to 60 seconds to acquire signals.

Initial Setup

When turning the Rider 30 on for the first time, the setup wizard appears on screen. Follow the instructions to complete setup.

1. Select the display language.
2. Select the unit of measurement.
3. Enter your “user profile”.
(It is recommended to input the data. The data accuracy will highly affect your training analysis.)
4. Read and accept the Safety Agreement.

NOTE:
If you want to change the language on the device, change the setting via Bryton Bridge -> My Rider 30 -> Device Language.

Ride your Bike with Rider 30!

1. Just ride with free cycling mode or set up a training program through Menu options.
2. Press the Mode button to switch modes.
3. Select from the available different modes: Meter, Find & Go, Altitude Chart and My Buddy.
4. In free cycling, press to start recording log, and press again to stop recording.

Manage Rider 30 Data via Your Computer

1. Connect your Rider 30 to your computer by using USB cable.
2. Install the Bryton Bridge application. You can download the application at <http://corp.brytonsport.com/supportSDownload.html> or the bundled CD that includes in the package.
3. Follow the on-screen instructions to transfer data to your computer.
