# **Battery Information**

## **Heart Rate Monitor and Cadence Sensor Battery**

The heart rate monitor/cadence sensor contains a user-replaceable CR2032 battery. To replace the battery:

- 1. Locate the circular battery cover on the back of the heart rate monitor/cadence sensor.
- 2. Use a coin to twist the cover counter-clockwise so the arrow on the cover points to OPEN.
- 3. Remove the cover and battery. Wait for 30 seconds.
- 4. Insert the new battery, with the positive connector first into the battery chamber.
- 5. Use a coin to twist the cover clockwise so the arrow on the cover points to CLOSE.

#### NOTE:

- When installing a new battery, if the battery is not placed with the positive connector first, the positive connector will easily deform and malfunction.
- Be careful not to damage or lose the O-ring gasket on the cover.
- Contact your local waste disposal department to properly dispose of used batteries.

# **Install Rider 330**

## **Mount Rider 330 to the Bike**

# Install the Speed/Cadence/Dual Sensor (Optional)

#### **NOTE:**

- To ensure optimum performance, do the following:
  - Align both sensor and magnet as shown in the illustration (5a / 5b). Pay attention on the alignment points.
  - Ensure the distance between the sensor and the magnet is within 3 mm.
- Ensure that both Speed sensor and Speed magnet are installed and aligned horizontally, not vertically.
- On the initial usage, press the front button to activate the sensor and start pedaling. When the sensor detects the magnet, the LED blinks once to indicate the alignment is correct (the LED blinks only for the first ten passes after pressing the button).

## **Install Heart Rate Belt (Optional)**

#### **NOTE:**

- In cold weather, wear appropriate clothing to keep the heart rate belt warm.
- The belt should be worn directly on your body.
- Adjust the sensor position to the middle part of the body (wear it slightly below the chest). The Bryton logo shown on the sensor should be facing upward. Tighten the elastic belt firmly so that it will not turn loose during the exercise.
- If the sensor cannot be detected or the reading is abnormal, please warm up for about 5
- If the heart rate belt is not used for a period of time, remove the sensor from the heart rate belt.

# **Basic Care For Your Rider 330**

Taking good care of your device will reduce the risk of damage to your device.

- Do not drop your device or subject it to severe shock.
- Do not expose your device to extreme temperatures and excessive moisture.
- The screen surface can easily be scratched. Use the non-adhesive generic screen protectors to help protect the screen from minor scratches.
- Use diluted neutral detergent on a soft cloth to clean your device.
- Do not attempt to disassemble, repair, or make any modifications to your device. Any attempt to do so will make the warranty invalid.

**NOTE:** Improper battery replacement may cause an explosion. When replacing a new battery, use only the original battery or a similar type of battery specified by the manufacturer. Disposal of the used batteries must be carried out in accordance to the regulations of your local authority.

For better environmental protection, waste batteries should be collected separately for recycling or special disposal.

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.

DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

# FCC Regulations:

# § 15.19 (a)(3)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### ₹ 15.21

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### § 15.105 (b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- —Regrient or relocate the receiving antenna.
- —Increase the separation between the equipment and receiver.
- —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.

#### FCC RF Exposure Compliance

This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission for an uncontrolled environment.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 0.5 centimeters between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter

The antennas used for this transmitter must be installed to provide a separation distance of at least 0.5 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

# Australian Consumer Law

Our goods come with guarantees that cannot be excluded under Australian consumer law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

# **Industry Canada Compliance**

IC Regulations:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

#### IC RF Exposure Compliance

This equipment complies with IC RSS-102 RF exposure limits set forth for an uncontrolled environment.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

This Category II radiocommunication device complies with Industry Canada Standard RSS-310.

Ce dispositif de radiocommunication de catégorie II respecte la norme CNR-310 d'Industrie
Canada

#### IMPORTANT NOTE:

#### IC Radiation Exposure Statement:

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 1.5 cm between the radiator & your body.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

# CE Marking Warning

This is a Class B product, in a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

#### **Limited Warranty**

Bryton Inc. warrants its products to be free from defects in materials or workmanship for one year from the date of purchase. Bryton Inc. will repair or replace any component that falls in normal use within this limited warranty period at no charge to the customer for parts or labor.

This warranty does not apply to

- 1. damage caused by misuse, accident, abuse, fire, or other external causes or acts of nature
- 2. physical damage to the surface, such as scratches and dents;
- 3. consumable parts, such as batteries, heart rate belt, unless product damage has occurred due to a defect in materials or workmanship
- 4. damage caused by anyone who is not an authorized service provider of Bryton Inc.

This Limited Warranty is subjected to the following terms and conditions:

- 1. To obtain warranty service, a proof of purchase, an original or copy of the sales receipt from the original retailer, is required.
- 2. Bryton Inc. retains the exclusive right to repair or replace the product or offer a full refund of the purchase price at its sole discretion.
- 3. Bryton Inc. will not replace missing components from any package purchased through an online auction. An original or copy of the sales receipt from the original retailer is required to obtain the Limited Warranty.
- 4. To obtain warranty service, contact Bryton Inc. (www.brytonsport.com) for shipping instructions
- 5. This Limited Warranty covers expenses for inspecting and repairing the product during the Limited Warranty Period. The defective product shall be delivered by the purchaser at his/her own expense to the designated premises together with the proof of purchase.
- 6. All replaced faulty products or components will become the property of Bryton Inc.
- 7.The repaired or replaced parts by Bryton Inc. shall continue to be warranted for the remaining time of the original one year warranty period or for 90 days from the date of repair or replacement depending upon which is longer.
- 8. Back up data and remove any confidential, proprietary, or personal information from the Product before returning any unit for service. Bryton Inc. is not responsible for damage to or loss of data
- 9. Bryton Inc. products are intended to be used as personal aids and must not be used for precise measurement of direction, location, distance or topography and makes no warranty as to the accuracy or completeness of map data in its products.
- 10. Bryton Inc. reserves the right to refuse warranty claims against products or services that are obtained and/or used in contravention of the laws of any country.

11. For international purchases, a separate warranty may be provided by international distributors depending on the country. If applicable, this warranty is provided by the local in-country distributor and this distributor provides local service for your device. Distributor warranties are only valid in the area of intended distribution.

EXCLUSION OF OTHER DAMAGES. TO THE FULL EXTENT ALLOWED BY LAW, BRYTON INC. AND ITS SUPPLIERS. AFFILIATES AND AGENTS ARE NOT LIABLE FOR ANY:

- (i) CONSEQUENTIAL OR INCIDENTAL DAMAGES:
- (ii) DAMAGES OR LOSS OF ANY NATURE WHATSOEVER RELATING TO LOST PROFITS, BUSINESS INTERRUPTION, LOSS OF DATA OR PRIVACY OR CONFIDENTIALITY, ANY INABILITY TO USE ALL OR PART OF THE HARDWARE DEVICE OR SOFTWARE, PERSONAL INJURY, OR ANY FAILURE TO MEET ANY DUTY (INCLUDING BUT NOT LIMITED TO ANY DUTY OF NEGLIGENCE, GOOD FAITH OR OF WORKMANLIKE EFFORT); OR
- (iii) INDIRECT, SPECIAL, OR PUNITIVE DAMAGES ARISING OUT OF OR RELATING IN ANY WAY TO THE SOFTWARE OR HARDWARE DEVICE: THE FOREGOING APPLIES EVEN IF BRYTON INC. OR ANY SUPPLIER, AFFILIATE OR AGENT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES OR DAMAGES; AND EVEN IN THE EVENT OF FAULT, TORT (INCLUDING NEGLIGENCE), STRICT OR PRODUCT LIABILITY, MISREPRESENTATION OR OTHER REASON.

Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusions may not apply to You.
